## GRiffin TIG

Manufacturer	Griffin Heat Shield Company
Part Name	Griffin TIG
Part Number	4000A
Product Category	Accessories
Product Type	Finger/Hand Protector
Price Range	Premium
Length	6"
Width	4"
Weight	1 oz
Stitching Material	Kevlar
Attachment Method	Leather and elastic strap
Number of Layers	1
Front Layer Material	Aluminized woven fiberglass
Back Layer Material	Woven fiberglass
Color	Silver
Size	6" x 4"
Special Feature 1	Heat Reflective
Special Feature 2	One size fits all
Country of Origin	USA
Product Material Composition	97% Textile, 2% Leather, 1% Brass Rivet
Product Description	Aluminized heat reflective pads are made of reflective materials to protect hands/fingers from radiant heat, sparks and molten splash.

Griffin Heat Shield Company specializes in producing the most effective **safety equipment for welders** available. Our customized, innovative products are built with over **thirty years of knowledge** of the safety needs in the welding industry. Our industry leading **super hand cooler** was the first reversible backhand pad on the market in 1979. We have been producing our current design since 1995 and we obtained a patent in 1999. Our products were designed by our founder who spent over 60 years as a welder and welding inspector. We have consistently added innovative products to our line by listening to the demands of the welding market. Our products can be used in all types of welding applications such as: **GMAW (Mig) welding, flux core welding, SMAW (stick) welding, heli-arc welding, plasma arc burning and oxy-fuel burning**. Our products are lightweight and pliable, providing the **welder maximum comfort and flexibility**. We pride ourselves on **quality and customer service**. Our quality is unmatched by the competition and is **100% made in USA**.

**QUALITY - 100% MADE IN THE USA - EXCELLENT CUSTOMER SERVICE**
